Campaign Background

The "It's Better OFF" staff energy awareness campaign was launched in February 2009, with the full support of the Chief Operating Officer.

As part of the campaign champions have been recruited and trained, walkarounds conducted, and results published with the aim of proving small changes to the way we work make a huge difference to the energy we use.

You don't have to be a champion to help. Let us know if you think there is potential to save energy in your area, something as simple as lights or fans that are on 24/7

Let us know environment@lboro.ac.uk

The Results So Far...

Q3 Saving (Feb – April 09) £35,646.00

Q4 Saving (May – July 09) £35,137.00

Q1 Saving (Aug – Oct 09) £27,151.00

Q2 Saving (Nov 09-Jan10) £20,832.00
